PANOLIN able to supply despite COVID-19

COVID-19 has affected the whole world. PANOLIN so far is able to supply all lubricants as we have taken strict measurements such as home office work and the building of teams to keep production and laboratory running. We ask for your understanding that delivery times may be longer than usual.

We are in an exceptional situation and everyone must do her/his part to minimize the spread of COVID-19. At PANOLIN the safety and health of our employees, customers as well as our suppliers is absolute priority.

Therefore, PANOLIN has taken very strict measures to fight the Coronavirus and keep everyone healthy at work, but also to assure production is not being jeopardized. As a result, most of our office staff is working from their home offices and in the production and laboratory we work in “critical process teams”, to assure operations. This allows us to keep blending and supplying our valued customers whilst assuring there is no direct interface between the employees.

We would like to say **THANK YOU** to all our staff and partners for staying focused and for the flexibility that has been needed to implement changes while delivering PANOLIN-quality service to our customers.

Stay healthy everyone and be safe!

Your PANOLIN team
